

Software Test Plan

1. Objective

The objective of this test plan is to validate the functionality, usability, reliability, and performance of the application and ensure that all business requirements are met before deployment.

2. Scope

In Scope

- Functional Testing
- API Testing
- Database Validation
- Regression Testing
- Smoke Testing
- User Acceptance Support

Out of Scope

- Performance Testing
 - Security Testing
 - Infrastructure Testing
-

3. Test Strategy

The testing approach will include:

- Requirement Analysis
- Test Scenario Identification
- Test Case Design
- Test Execution
- Defect Reporting and Tracking
- Regression Testing
- Final Sign-off

Testing Types:

- Functional Testing
- Regression Testing
- Smoke Testing
- API Testing
- Database Testing

4. Test Environment

Item	Details
Environment	UAT
Application Type	Web Application
Browser	Chrome, Edge
API Tool	Postman
Database	MySQL/Oracle
Defect Tracking Tool	JIRA

5. Test Scenarios

Login Module

- Verify login with valid credentials
- Verify login with invalid credentials
- Verify password validation

User Management

- Create User
- Update User
- Delete User

API Validation

- Verify response status code
- Verify response schema
- Verify authentication

Database Validation

- Verify data insertion
 - Verify data update
 - Verify data consistency
-

6. Entry Criteria

- Requirements are approved.

- Test environment is available.
 - Build is deployed successfully.
 - Test data is available.
 - Test cases are reviewed and approved.
-

7. Exit Criteria

- All critical and high-severity defects are closed.
 - Test cases executed successfully.
 - Regression testing completed.
 - No open blocker defects.
 - Test summary report shared.
-

8. Risks & Mitigation

Risk	Mitigation
Environment downtime	Coordinate with DevOps team
Requirement changes	Update test cases immediately
Delayed build delivery	Adjust testing schedule
Incomplete test data	Prepare backup test data

9. Deliverables

- Test Plan
 - Test Scenarios
 - Test Cases
 - Defect Reports
 - Test Execution Report
 - Test Summary Report
 - Sign-off Document
-

10. Sign-off

Role	Name	Signature
QA Engineer	Amol Rathod	Approved
Project Manager	___	Pending

Role	Name	Signature
Business Analyst	___	Pending

Prepared By: Amol Rathod QA Engineer | 4.5+ Years Experience
